

## Shepherds Down Music Development Plan 2025-2026

This is a summary of how our school delivers music education to all our pupils across four areas. This information is to help pupils and parents or carers understand what our school offers and who we work with to support our pupils' music education.

### Our Vision

At Shepherds Down School we aim to engage and inspire children to develop independence and life skills including a love of music.

- We aim to provide children with high quality musical experiences, where music making has purpose, is valued and celebrated.
- We aim to promote a broad musical culture, with opportunities to play and sing together, perform, create and experience live music.
- We aim to deliver music that is practical and embedded in our daily teaching and learning experiences.
- We aim to ensure that there are no barriers to participation and learning, allowing all children to experience the joys of making music, as well as supporting children's wider development, well-being and emotional health.
